Yes

What did you like most about the tutoring sessions?
The fact that our tutor provides uses past papers to tutor us
Knowing that I will definitely leave the session with a full understanding.
It helps us understand more about the module
Participation in class
The tutor patiently explain the concept until we get it even if most people understand he will give himself time
The tutor was very patient with us.
He helped us in questions that troubled us when we asked
We get to ask Questions in our home languages

What could the tutor improve to make sessions better?
Focus on balancing both practicals and theory
Encourage engagement
I think he could also be patient to us all and give us some tips on how to learn specific task without his help or
More practical
Nothing
Be more relaxed
.
Teaching Style

Are there any additional resources or support you would like from the tutor?
Yes past papers
More sessions
No
Yes
No
Previous years question papers
More class works would be appreciated
No

Any other comments or suggestions?
N/A
All I can say is that it has been a good year and I appreciate his hard work
I suggest that tutors who really do their work should be rewarded because some don't do their work and Sima
Siyabulela Sima 🙏
None
Keep up the good work

gives his time for us and he teach even if there are 2 people who attended his very dedicated in his wo

rk.

(Help me improve.) What strategies do you wish I could implement and think might work?
wqdwdwd
Nothing
Contact classes
Teach me like I have never introduced to a topic
teach more & give more activities
To fully focus on the chapter we are struggling as students.
The tutors must engage with the students during sessions, they must not expect students to know everything,
Firstly briefly summarize the whole chapter then give us lots of activities
Our mentors explain better than our lectures let them teach us before writing exercises
By practising past question papers and giving us many activities to practice on so that we won’t panic during e
Giving more exercises
Siryt esi uza ngaso
Uhm try to do even the examples that may seem "easy" before the difficult ones
Firstly solve a particular problem with us then we can do the following one by ourselves.
Try to explain or go into details before sharing exercises
Start the exercise with us don't give us exercise to do because we don't know anything about the module ther
Engage more with class during lessons , don’t focus on people you know give others chance to try.
Have more sessions before test/s
Do the practicals together with students and explain to them then after you can give them exercise to test the
Start from the start
Try to not let us stick on one exercise for more than an hour...20 minutes is enough them do corrections so

Which area do you want me to help you in your module?
Arrays
wdwdwdw
Arrays
All of them
Arrays
Arrays
Arrays and Chapter 5
Be more engaging with me as a student, because something I don't understand the lecturer's session.
Arrays
For loops chapter 5 to be specific
Whole arrays
Arrays especially when a question requires you to calculate columns and rows in 2D or specified columns, and
2D array calculations and displaying
Andikaboni kahle kuseryt
Do while looping and the 2 D array

What did you like most about the TP tutorial sessions with your tutor?
Activities and questions
He doesn't mind explaining until students understand
We get a chance do ask questions .
He asks if there's any improvements he can do to make a successful lesson.
The practice questions
you get opportunity to ask questions that you struggling on
There would be always a solution to a problem and it will be explained in details for all of us to understand an
Very supportive
He made everything easy for us because he listens and improves his teaching style flexibly
I really appreciated the clarity and patience my tutor brought to the TP tutorial sessions. Their ability to break
He was very clear about everything, he also pushed to do better

What challenges did you face during the TP tutorial sessions?
Wasnt able to ask when i didn't understand
None
I did not face any challenges.
Understanding but not able to apply practically.
The time schedule
No challenges
Questions
Methods loops
No challenges at all
The loops that consist many if statement

What one thing can I do to help you with your learning?
Explain code instead of writing it with us
So far you teach good.. Nothing
Continue giving us more exercises
Doing questions and applying more regularly.
Provide more exercises
Give me more work to do at home
Give more extra questions
revise methods with us
One thing that would really help me with my learning is if you could provide more past question papers and d
Helps us with the tutoring sessions again

What would you suggest to improve this course in the future?
Explain code instead of writing it with us. That way it gives us directions
More notes
Nothing for now
Doing more questions and applications regularly.
Provide more exercises and practice questions
There must be always a tutor
Continue give us questions
Nothing for now , i guess.
We do more practicals

Any additional comments or feedback?
