ABOUT ME

I am an emerging Applications Development professional, academic practitioner and aspiring researcher currently pursuing an Advanced Diploma in ICT in Applications Development at iYunivesithi Walter Sisulu. Between 2024 and 2026, I served as a tutor within the Department of Information and Communication Systems, accumulating three years of experience supporting students in their academic and technical development. This experience has strengthened my interest in Higher Education, particularly in teaching, mentorship and positively influencing how students approach their academic responsibilities, personal development and social lives.

My professional interest extends beyond traditional software development into data-intensive and research driven environments. These include Data Analytics, Data-Driven Application Development, Information Systems, Statistical Research, Database Systems and Software Engineering. I am particularly interested in understanding how data, information and technology can be integrated to develop meaningful solutions to complex problems.

My long-term goal is to become a Higher Education academic, technology professional and researcher whose work bridges computing, education, data and human wellbeing. I am committed to intellectual growth, evidence-based practice, lifelong learning and using knowledge to create meaningful and sustainable impact.

CORE COMPETENCIES

Computer Science and Software Engineering Technical Capabilities

- Programming with Python and Java
- Oracle APEX
- Mobile Development with Flutter
- Object-Oriented Programming and Design Patterns
- Data Structures and Algorithms
- Big O Notation
- Data Analysis
- Basic Statistics
- Git and GitHub
- Linux
- Software Development Principles
- Application Development
- Debugging and Logical Reasoning
- Database Systems and SQL

Teaching and Academic Development

- Technical Tutoring and Mentoring
- Research and Literature Review
- Presentation and Knowledge Sharing

Professional and Organisation

- Written and Verbal Communication
- Collaboration and Teamwork
- Time Management
- Adaptability
- Continuous Professional Development
- Leadership Potential
- Initiative and Self-Directed Learning
- Emotional Resilience and Patience
- Empathy
- Professionalism

PROFESSIONAL EXPERIENCE

DEVELOPMENT SOFTWARE III TUTOR

Walter Sisulu | 2026

- Assisted students with project requirements and specifications
- Guided students on application design and implementation
- Supported students with database design and database rules
- Assisted students in troubleshooting technical problems
- Provided feedback on students' project work
- Supported students during project consultations
- This role strengthened my ability to manage competing requests, patience and time management

TECHNICAL PROGRAMMING II TUTOR

Walter Sisulu | 2024 and 2025

- Assisted students with practical programming exercises
- Clarified concepts discussed during lectures
- Supported students in completing assignments and practical tasks
- Helped students identify and troubleshoot coding errors
- Guided students through problem-solving processes
- Assisted students in preparing for assessments and practical evaluations
- This role strengthened my communication, leadership, patience and problem-solving skills

---

TOP SELECTED PROJECTS

MarkMind - Student Assessments Management

Technology: Oracle APEX, Oracle Databases, SQL, PL/SQL

Developed a web-based student assessments management application with Oracle APEX.

isitiyaGarden – Digital Platform for Smallholder Produce Availability

Technology and design: Supabase, Dart, Flutter, database modeling, application architecture and UI/UX design

Developed a mobile application aimed at improving the visibility of local smallholder agricultural produce, particularly within rural communities.

EDUCATION

Advanced Diploma in ICT in Applications Development

iYunivesithi Walter Sisulu | Current

Academic focus: *Application Development, Software Engineering, Database Systems, Systems Analysis and Design, Data Structures and Algorithms, Management, Research Methodology, Software Development and Coding Principles.*

Research: *Anything New or Interesting in the Perceptions of these Communication Networks Students on the Readiness of their Rural University for Inclusive Education.*

Proud Moment: *I was appointed to be the Chief (Class representative).*

Diploma in ICT in Applications Development

iYunivesithi Walter Sisulu | Pass Graduate, 2025

Academic focus: *Software Development, Oracle APEX, Information Systems, and Technical Programming.*

CERTIFICATIONS AND SELECTED ACHIEVEMENTS

FEBEIT Tutoring Certificate of Recognition

iYunivesithi Walter Sisulu | Successfully Facilitating Tutorial Sessions, 2025

FEBEIT Tutoring Certificate of Recognition

iYunivesithi Walter Sisulu | Successfully Facilitating Tutorial Sessions, 2024

Samsung Innovation Campus (Python & AI) Graduate

iYunivesithi Walter Sisulu | AI and Python Programming Course, 2024

DIRISA Student Datathon Training

iYunivesithi Walter Sisulu | Data Analysis, Python, Statistics, Data Science, Machine Learning (2025)

FameLab (Talking Science) Certificate of Participation

iYunivesithi Walter Sisulu | 2026

Eastern Cape Automotive & eMobility Hackathon Participant

AIDC Eastern Cape | 2025

ADDITIONAL INFORMATION

Professional Interests: Software Engineering, Computer Science, Data Analytics, Database Systems, Artificial Intelligence, Technology Research, STEM Education, Digital Inclusion and Digital Innovation.

Target Opportunities: Software Developer, Junior Software Engineer, Data Analyst, Junior Business Intelligence Analyst, IT Support, Computer Science Tutor, Academic Support Practitioner, Technical Trainer, Technology Graduate Programmes, Honours Study Opportunities, Academic Funding.

Professional Attributes: Analytical, intellectually curious, detailed-oriented, adaptable, collaborative, self-motivated and committed to professional excellence.

Languages: IsiXhosa, English, IsiZulu, and Sesotho.
